

KITCHENS ON DEMAND

Guidelines

Measure your room dimensions, wall to wall, wall to window etc

Ceiling height

Location of radiators, gas pipes, stop taps etc

Door/window sizes and the direction they open

Planning

Use this tool alongside our website to plan your kitchen

Mark out your room dimensions on the planning graph provided using a scale of 1:200 (each square = 200mm)

All base units are standard 570mm deep, wall units are standard 300mm deep. As we make all of our units we can make them any depth you like.
